WHEREAS, Section 1007.235, Florida Statutes, specifies that articulation agreements pertaining to acceleration programs (dual credit) shall be executed between community college boards of trustees and district school boards within each community college district, and;

WHEREAS, the 1998 Legislature enacted SB 1124, further clarifying SB 1688 and recommending establishment of the applied technology diploma (ATD), limiting college credit ATD to colleges or through articulation with vocational center students, defining performance as the basis for funding for workforce development and establishing a formula and base for funding, establishing an articulation agreement to include the applied technology diploma and the associate in applied science degree, creating the category of continuing workforce education (instruction for licensure renewal or certification, new or expanding business, retraining, or upgrade training); and legislation providing proviso language on implementation of K-16 measures that would continue reforms designed to create a seamless system of educational success.

WHEREAS, the 2000 Legislature enacted HB 2105, which specifies the following components to all district interinstitutional agreements:

2. Development of a plan for the community college to provide guidance services to participating students on the selection of courses in the dual enrollment program, to assure access to automated advising systems and to assure the opportunity for each student to identify a postsecondary education objective with which to guide dual enrollment course selection.
3. Provision in the plan for a delineation of high school credits earned for completion of each dual enrollment course.

WHEREAS, the Board and the College desire to enjoy a harmonious working relationship and voluntarily continue to enhance articulation between the two entities to improve educational opportunities for students who are served by the two entities;
