*Note: Approximate annual rates may be calculated by multiplying the hourly rate above times the number of contract days times the number of hours worked per day. Due to the pay equalization process that pro-rates total annual amounts over the course of the year, biweekly amounts typically may not be calculated by multiplying your hourly rate times the number of hours per pay period. You may view your biweekly amount in ESS by choosing the Paycheck Simulator or by viewing a recent paystub.*

**Salary Referendum Supplement:** Current Rate

The salary referendum supplement is paid in addition to the base rate and determined by Pasco years of service. Annual salary can be calculated by multiplying the hourly amount by the employees's contracted work schedule.

Example: 196 days & 7.5 hours with 5 Pasco years of service; 196 x 7.5 x \$1.25 = \$1,837.50 annually
