

All evaluators for home education students must have a current certification in academic subjects at the elementary or secondary level in the state of Florida,

There are many home education support groups in Florida that may be found via the internet and/or social media. In addition to local support groups, there are also statewide groups to support home educators. Florida Parent Educators Association (FPEA), a statewide support group, may be contacted toll-free at (877) 275-3732 or online at <http://www.fpea.org>.
